

## Key Information

**Inception:** May 2010

**Creation:** June 2010

**# of Holdings**<sup>1</sup>: Typically 25 to 35

**Position Size:** Typically 2% to 7%

**Position Turnover**<sup>1</sup>: Typically 20% to 40%

**Available Vehicles:** Separately Managed Account

## Portfolio Manager

### John Musgrave

- President and CEO, Portfolio Manager
- Industry Experience: Since 2004
- Education: B.B.A. Texas A&M University

## Strategy Overview

The Strategy is a long-only strategy that invests in midstream companies with a focus on producing a high level of total return, with an emphasis on current distributions. The Strategy focuses primarily on larger capitalization midstream company investments that, in the Portfolio Manager's opinion, have an attractive balance of potential growth and current distributions.

## Performance vs Benchmark (%)

as of September 30, 2023

	Q3 2023	2023 YTD	1 Yr	5 YRS <sup>1</sup>	10 YRS <sup>1</sup>	Since Inception <sup>1,2</sup>
<b>Strategy (Gross)</b>	6.38	12.63	23.56	6.32	4.53	9.24
<b>Strategy (Net)<sup>3</sup></b>	6.12	11.79	22.33	5.26	3.47	8.14
<b>Blended Midstream Index TR<sup>4</sup></b>	2.49	7.11	16.09	2.77	-0.01	4.69

**PAST PERFORMANCE IS NOT INDICATIVE OF FUTURE RESULTS**<sup>1</sup>Returns greater than 1-year are annualized. <sup>2</sup>Strategy Inception was March 2010. <sup>3</sup>Net returns are calculated using a 1% model investment fee. <sup>4</sup>The Strategy has selected a blended benchmark as its benchmark. The returns for the blended benchmark represent the returns of the Alerian MLP Index (AMZ) prior to January 1, 2022 and the returns of the Alerian Midstream Energy Select Index (AMNA) thereafter. The Alerian MLP Index (AMZ) is a capitalization weighted index of the most prominent energy master limited partnerships. The Alerian Midstream Energy Select Index (AMNA) is a broad-based composite of North American energy infrastructure companies. Index results assume the reinvestment of all capital gain and dividend distributions. It is not possible to invest directly in an index. Index performance does not reflect the deduction of fees and expenses.

## Statistical Information vs Benchmark<sup>1</sup>

as of September 30, 2023

<sup>1</sup>Portfolio Holdings are subject to change and there is no assurance that the Strategy will continue to have these subsector allocations.

Alerian MLP Index TR (AMZ) and Alerian Midstream Energy Index TR (AMNA) ("the Indices") are servicemarks of VettaFi LLC ("VettaFi") and their use is granted under a license from VettaFi. VettaFi does not guarantee the accuracy and/or completeness of the Indices or any data included therein and VettaFi shall have no liability for any errors, omissions, interruptions or defects therein. VettaFi makes no warranty, express or implied, representations or promises, as to results to be obtained by Licensee, or any other person or entity from the use of the Indices or any data included therein. VettaFi makes no express or implied warranties, representations or promises, regarding the originality, merchantability, suitability, non-infringement, or fitness for a particular purpose or use with respect to the Indices or any data included therein. Without limiting any of the foregoing, in no event shall VettaFi have any liability for any direct, indirect, special, incidental, punitive, consequential, or other damages (including lost profits), even if notified of the possibility of such damages.

All investments involve risk and may lose value. The strategy will invest in master limited partnerships ("MLPs") and other energy companies. MLPs are subject to certain risks inherent in their structure, including complex tax structure risks, limited ability for election or removal of management, limited voting rights, potential dependence upon parent companies or sponsors for revenues to satisfy obligations and potential conflicts of interest between partners, members and affiliates. Energy companies may be affected by fluctuation in the prices of commodities, declines in production or supply sources, a sustained decline in demand environmental liabilities, changes in regulation and other risks. Investors should consult their investment professionals prior to making an investment decision.

As of 9/30/2023 N.A. - Information is not statistically meaningful due to an insufficient number of portfolios in the composite for the entire year. <sup>1</sup>Performance reflects the un-annualized performance for the period 3/1/10 to 12/31/10 <sup>2</sup>For periods with less than 36 months of composite performance, no 3-year ex-post standard deviation measurement is available <sup>3</sup>Dispersion is the asset-weighted standard deviation of annual returns of all portfolios in the composite for the entire year. If dispersion is N.A., the composite did not hold 6 or more accounts for the entire year or the period is a partial year. <sup>4</sup>The Strategy has selected a blended benchmark as its benchmark. The returns for the blended benchmark represent the returns of the Alerian MLP Index prior to January 1, 2022 and the returns of the Alerian Midstream Energy Select Index thereafter.

**Important Information: Compliance Statement:** NXG Investment Management (Formerly, Cushing Asset Management, LP) ("NXG") claims compliance with the Global Investment Performance Standards (GIPS) and has prepared and presented this report in compliance with the GIPS standards. NXG has been independently verified for the periods January 1, 2006 through December 31, 2022. The verification report(s) is/are available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific report. GIPS is a registered trademark of CFA Institute. CFA does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein. **Definition of the Firm:** NXG is an independent investment adviser registered with the U.S. Securities and Exchange Commission. The firm was founded in 2003 and was rebranded as NXG Investment Management in 2022. NXG specializes in providing active management in markets where inefficiencies exist. The firm maintains a list of composite descriptions, which is available upon request. **Description of Composite:** The Composite is comprised of concentrated portfolios of long only publicly traded midstream energy infrastructure companies. The objective of each portfolio is to provide a high after-tax total return through a balance of growth and current income. The Composite was inception in May 2010 and created in June 2010. The investment management fee schedule for the NXG Cushing® Midstream Energy Strategy is 1% on the value of managed account assets. Actual investment advisory fees incurred by clients may vary. Further information regarding investment advisory fees is described in Part 2A of the firm's Form ADV. The Strategy has selected a blended benchmark as its benchmark. The returns for the blended benchmark represent the returns of the Alerian MLP Index prior to January 1, 2022 and the returns of the Alerian Midstream Energy Select Index thereafter. The Alerian Midstream Energy Index (AMNA) is a broad-based composite of North American energy infrastructure companies. **Past performance is not indicative of future results.** The U.S. Dollar is the currency used to express performance. Performance shown represents total returns that include income, realized and unrealized gains and losses. Gross performance is presented net of transaction costs. Net of fee performance was calculated using a model fee of 1% for each portfolio. The annual composite dispersion presented is an asset-weighted standard deviation calculated using accounts in the composite the entire year. The 3-Year Standard Deviation represents the annualized standard deviation of actual composite and benchmark returns, using the rolling 36-months ended each year-end. Effective as of January 1, 2017, the Firm adopted a Significant Cash Flow Policy for the Composite. Composite policy requires the temporary removal of a portfolio from the Composite if there is a client-initiated cash inflow or outflow of 20% or more of the portfolio's assets. If the client intends to initiate a series of cash flows over a short period of time (e.g. less than three months) rather than a single cash flow in order to less the impact on the client portfolio, these cash flows will be aggregated to determine if the 20% threshold is met. The temporary removal of such portfolio will occur at the beginning of the month in which the significant cash flow occurs and the portfolio will re-enter the Composite the month after the cash flow. Additional information regarding the treatment of Significant Cash Flows is available upon request. Beginning March 2020, the composite requires a minimum account balance of \$500,000. Prior to March 2020, the composite required a minimum account balance of \$1 million. **Additional information:** Additional information regarding the firm's policies and procedures for valuing portfolios, calculating performance,
